

## **TRIP PLANNING INVOLVING ADDITIONAL SCHEDULED INTERCITY BUS & LIMO SERVICE TO MAJOR US AIRPORTS**

These carriers operate scheduled shuttle service between a major airport and outlying communities. They almost never interline or share stations with other carriers and should generally not be considered for intercity trips involving transfers. They do, however, provide the only meaningful access to a metropolitan area from otherwise isolated communities. Contact them to see if they will carry passengers between intermediate stops they have, if desired.
